

Dear Harold,

Enclosed is No. Valley Mail for Mar. 6, 1968. I spoke to Charlotte Schoenkopf, the author about it. She wouldn't say where she got the information on Drennan. It corroborates the FBI report you got from Paul. She also wouldn't say who the Bradley witness is, but Jaffe says he knows and not to worry. I won't.

Charlotte also said that she was contacted re: the Bradley stories by a man named "Tom" who said he was Garrison's sole representative in Los Angeles. She wouldn't give me a last name. This is the second time such a person has popped up; the other being in connection with the Free Press printing material they shouldn't print. Jaffe checked with the office, to be certain, and there is no such legitimate person.

Back to Drennan...I found two ex-NSRP people who knew him. I'll talk to them this week. His address, as reported in the report, is a phony. There is no similar address even. See the enclosed xerox of the address directory. I'll go up there anyhow and ask around (as a reporter--I got police press I.D.). Art is trying to find him to interview him about the MAIL story.

Jaffe talked to hall this week. Very interesting. He places himself, Bradley, a certain military man in the area, a certain doctor, and a certain home owner (who had a side business going in his garage/basement in '63), together.

Please excuse the typing; I'm at KIJ where I'm not used to the typewriter. I should have spoken to you by the time you get this. If not, please get me all info on DA subpoenas Zap film and DA of Washington DC letter as soon as you possibly can. Free press deadline is Tue.

Best,

Jim Callahan
